How to use AI to make better betting decisions

A lot of people see AI as a threat because people imagine that computers will soon be in charge of all of the analysis, statistics and odds-taking responsibilities that people currently do.

Whether it is using machine learning or using predictive analytics, both of these areas are already being used in the industry.

So, let's take a look at what artificial intelligence is and how you can use it in order to make profitable betting decisions.

What is Artificial Intelligence?
