Without further ado, let's get right into it.

Some slot machines offer jackpots that are specific to them, which tend to be fairly small but reasonably possible to win.

The Dragon Link video slot bank can be made up of varying numbers of machines, mixed between four different titles.

As you'd expect, these titles follow most of the standard features found in most Aristocrat slots.

This means that on all of the games, you'll see the standard mix of card game ranks (kings, queens, and so on) taking up the lower-value symbol positions.

Each game in this series offers this special feature, as it is not only a way to win some instant credits, but it could also be your ticket to a large jackpot payout.

Hit six or more of these on the screen at once, and you'll activate the Hold & Spin feature.

This new version takes much of the same conceptual design and attaches it to new games, offering the same great linked jackpots and gameplay variety that have made designs of this type so popular in the past.

If you're the type of player who likes to take a shot at big jackpots, but doesn't want that top prize to feel too unobtainable, then we think you might want to play Dragon Link.
